Service Type: Oral Health

For Fiscal Year July 1, 2016 - June 30, 2017

Result Type: Improved Child Health

Provide the most recent compelling service outcome available for this service.

Community Outcomes:

- Improved oral health for children in Trinity County
- Improved resources for oral health
- Evidence of change in the public health system and community to more support for positive oral health behaviors
- Reduction in disparities of low-income children 0-5 years old with sealants

Program Outcomes:

- Children's health development is on track; improved health outcomes because of improved nutritional intake and eating habits
- Children are ready for kindergarten
- More children have sealants

Provide the comparison data used to determine whether the service outcome was an improvement and specify the origin of the data.

The dental program has been offered for two years and each year the numbers of persons served and the outcomes improve. Unfortunately, the County will not have access to the mobile dental clinic due to the remoteness of the county and the distance between counties that share the van.

Describe the measurement tool used in the evaluation to measure the outcome.
